

▣ *Speedi & Speedi vario*

Speedi vario

The small stage marvel

Is it possible for a single person working alone to set up and take down a professional stage in just a few minutes with minimal effort? **Yes**, it is in fact possible!

Speedi is the name of our space-saving stage element on fixed and steering castors which can be assembled in no time at all into an impressive stage for organised events. **The effective area measures 250 x 125 cm.**

The stage is available as a fixed or variable height model. Speedi has a fixed height and Speedi vario has variable heights of 40 and 60 cm or 60 and 80 cm.

In developing these models, we have – as is the case with all our other models – attached the utmost importance to safety considerations. The Speedi stage has therefore been tested by the TÜV Product-Service (TÜV=German Technical Inspection Agency).

Stage available with different stage floors.

The Speedi stage is for instance ideally suitable for theatre and variety productions, choir, orchestral and band concerts.

Step unit

Technical Data

Effective area 250 x 125 cm,

Bearing surface approx. 45 x 125 cm,

Mobility fixed and 2 steering gray rubber castors with a diameter of 100 mm

Area load TÜV-tested to DIN 1055 with 500 kg/m²

Construction Jet black powder coated frame with galvanised moving parts

Corners are pressed into robust aluminium angle brackets

All round installation groove for rapid and secure attachment of accessories such as guard rails, step units etc.

Quick linking wedges lock platforms together securely so there is no difference in height, even on uneven ground. (Included in delivery)

Amazing benefits

Stable	thanks to special aluminium frame with welded-in middle brace and internal pressed angle bracket
Easy	to assemble and manoeuvre due to the integrated castors
Compatible	with all stage types thanks to the ingenious connection system
Conformation to specifications	certified by the TÜV Product-Service
variabel	Speedi vario is available with variable heights of 40 to 60 cm or 60 to 80 cm

Roll it and unfold it!

Step 1 - Roll it:

No need for a transport cart. Speedi vario is highly agile due to its fixed and steering castors.

Total height:
153 cm stage height 40 cm
174 cm stage height 60 cm

One person* can set up a stage or catwalk in just a few minutes.

Step 2 - Unfold it:

Quick to set up thanks to robust mechanism.

Adjusting the height: Remove pins, extend legs, re-secure.

Fold out curved metal supports on both sides and snap into place.

Step 3 - Push it:

The Speedi vario is brought into its level end position with an effortless push.

Step 4 - Use it:

The Speedi vario stage can be set up and taken down by just one person with minimal effort.

Technical data: Speedi vario

Speedi vario 40 and 60 cm

for stage heights of 40 cm and 60 cm,

Speedi vario 60 and 80 cm

for stage heights of 60 cm and 80 cm,

Constructed an aluminium frame and middle braces.

Legs have plastic feet with a diameter of 45 mm that allow the height to be adjusted by approx. 30 mm.

Stage floor is made of 5 layers of 21 mm beech plywood, the surface layer is lacquered black and the special aluminium frame is bolted on securely from below.

Special sizes and floor surfaces available on request.
